2. Customer Support, Claims Process and Coverage

Immediately contact TCL SunPower Global at techsupport.en@sunpowerglobal.com for a claim covered by this Limited Warranty. TCL SunPower Global may require additional information to validate the claim, including: applicable warranty registration information; itemized proof of purchase, delivery or installation information; serial and model numbers; and evidence regarding the basis of the claim. All TCL SunPower Global obligations hereunder are expressly contingent upon the timely and full provision of such additional information that is reasonably required to validate the claim. Claims subject to the exclusions set forth in Section 4 will be rejected. Returned Products will not be accepted unless prior written authorization has been provided by TCL SunPower Global.

For a validated claim made during the applicable Warranty Term, TCL SunPower Global will either repair, replace, or refund the covered Products. Subject to Applicable Law under Section 6, TCL SunPower Global has sole discretion in determining repair, replacement, or refund for each claim. For repairs and replacements, TCL SunPower Global will pay reasonable, customary transportation costs for the shipment of repaired or replacement Products to the place where the covered Products were originally delivered by TCL Sunpower Global. Replacement Products may be refurbished or remanufactured, will be electrically and mechanically compatible with the

covered Products, and will have substantially equal or greater power and performance ratings.

Unless instructed by TCL SunPower Global or required by Applicable Law, defective Products covered by this Limited Warranty shall be disposed of by the warranty holder in accordance with applicable regulations on electronic waste treatment, at their own transportation costs, and shall not be resold, reworked or reused in any way. If TCL SunPower Global decides to recover these defective Products, TCL SunPower Global will pay transportation costs and the title to any replaced Product shall pass to TCL SunPower Global.

For Products originally installed in Europe by TCL SunPower Global or an installer who is authorized by TCL SunPower Global, in any case who is properly trained to install and commission the Products in accordance with Applicable Law and relevant professional and regulatory standards, TCL SunPower Global will pay reasonable, necessary, and actual removal and reinstallation service costs of repaired or replaced Products, up to £150; provided, that (a) TCL SunPower Global has sole, reasonable discretion to select the service provider performing such services, and (b) TCL SunPower Global will pay the service provider for such service costs.

If TCL SunPower Global issues a refund of the original purchase price under a valid Product or Performance Warranty claim, that refund will cover the original purchase price if that claim is made during the first two (2) years of the applicable Warranty Term, and then linearly depreciate the refund amount by 11% per year (the “Claim Value”) if that claim is made after the first two (2) years of the applicable Warranty Term; provided, that for a valid Performance Warranty claim, TCL SunPower Global will refund the Claim Value multiplied by the percentage difference between the Guaranteed Capacity and the Measured Capacity (both as a percentage of Usable Capacity). If the original purchase price cannot be substantiated, TCL SunPower Global will use the market value of the defective Products at the time the valid Warranty Claim has been made to determine the Claim Value.

3. General Terms and Conditions

- a. Any and all coverage, right, and performance under this Limited Warranty is expressly conditional on full payment (including full payment of any charges for interest or late payment) due to TCL SunPower Global. TCL SunPower Global has no obligations under this Limited Warranty if there are outstanding charges or payments for Products that are the subject of a warranty claim.
- b. All warranty claims hereunder must be filed within the applicable Warranty Term. Any warranty claim filed outside the applicable Warranty Term, including any claim for a latent or undiscovered defect, is invalid and will be rejected by TCL SunPower Global.
- c. The Product and Performance Warranty Terms for any repaired or replaced Products shall not extend beyond their original terms.
- d. The inverter is only associated with the Warranty Period and has nothing to do with the battery (pack) performance.
- e. Except for the Energy Meter, the Products require an Internet connection to connect to TCL SunPower Global services, monitoring, and software updates. The Product and Performance Warranty Terms are each reduced to 3 (three) years for Products that are

disconnected from the Internet for more than thirty (30) consecutive days or for more than ninety (90) days in any twelve (12) month rolling period.

- f. Capacity test conditions: at an ambient temperature of $25^{\circ}\text{C}\pm3^{\circ}\text{C}$, after charging at a set current of 0.5C to 90% SOC, let it stand for 30 minutes, and discharge the tested battery module at a set current of 0.5C to the discharge termination voltage, and record the amount of electricity released in the process.
- g. The Product or any of its parts to be replaced will have the functionally equivalent performance and reliability as the original Product. If the production of the relevant type of the Product or any of its parts have been discontinued, withdrawn, or otherwise unavailable on the market, TCL SunPower Global reserves the right to replace the Product or parts with a similar Product or part (which may include previously used parts that are functionally equivalent to new in performance and reliability). Due to technical advances, it is possible that replacement parts or components may not be compatible with the other components already installed. Any costs relating to the incompatibility of systems are not covered by this Warranty. If the Products are replaced within the Warranty Period, the remaining warranty period will be automatically transferred to the replacement products without an additional extension.
- h. All warranty claims must be filed by or on behalf of the warranty holder. TCL SunPower Global may require documentation to confirm the identity of the warranty holder, authority of the claimant, and the sale, delivery, and original place of installation of the Products. TCL SunPower Global may reject warranty claims with insufficient documentation in its sole, reasonable discretion.
- i. This Limited Warranty is fully assignable by the warranty holder to a third party, provided: the warranty holder provides notice of assignment to TCL SunPower Global within 90 days of the assignment by contacting techsupport.en@sunpowerglobal.com; the notice includes reasonable documentation evidencing such assignment; and the subsequent warranty holder completes Registration of the Products.
- j. TCL SunPower Global does not warrant that the operations of the Products, nor any software or services included or provided with the Products to access or interact with the Products, will be uninterrupted or error-free.
- k. The Products are not intended for use as a primary or backup power source for any devices, including critical devices such as life-support systems, medical equipment, and any other device where Product failure could lead to injury, loss of life, property damage or damage to the device. TCL SunPower Global disclaims any and all liability arising out of the use or non-use of the Products, as well as any damage caused to any devices due to the use or non-use of the Products. Further, TCL SunPower reserves the right to refuse to provide support in connection with any use of the Products for critical devices and disclaims any and all liability arising out of TCL SunPower Global's provision of, or refusal to provide, support for the Products in such circumstances.
